**THE VALUE OF A DEGREE**
Deciding to go to college is an investment in your future -- and in West Virginia’s future. Students who earn a college degree earn hundreds of thousands of dollars more over a lifetime than students who do not pursue postsecondary education, plus students who go to college experience more stable employment and are more likely to be civically engaged and contribute to their communities. And with West Virginia’s changing economy, it is predicted that by 2020, more than half of all jobs in the state will require a postsecondary credential.¹

**TYPES OF INSTITUTIONS**
Part of the college experience is figuring out the right college pathway for you. Below is an explanation of some of the most common forms of college:

**Public two-year colleges:** Offer two-year associate degree programs in a wide variety of areas as well as certificate programs that can usually be completed in six - 18 months.

**Public four-year colleges:** Offer bachelor’s degree programs that usually take four years to complete; many offer master’s and doctoral degree programs.

**Private, non-profit schools:** Offer a wide variety of degrees and programs; tuition and fees are usually higher than those at public colleges, but many offer large scholarships through donor funds.

**Public career and technical education centers:** Offer training to high school students, adults seeking high school equivalency or specialized licenses.

**FINANCIAL AID OPPORTUNITIES**
West Virginia students have a number of in-state and federal financial aid opportunities available to them, many of which are grants and scholarships, which do not need to be repaid.

Below is a list of some financial aid opportunities for West Virginia students along with possible award amounts²:
